## MEASURING THE LENGTH OF YOUR FOOT.

Ensure you are wearing a sock when measuring your foot. Whilst, seated place a piece of paper in front of you. With a pencil, trace around your foot. Hold the pencil as straight up as possible while measuring and ensure the pencil remains in contact with your foot during this process.

With a ruler measure the distance between the base of the heel to the tip of the largest toe. The result is your foot length and the number you will use to determine your shoe size.

NOTE: Please keep in mind that this is only a guide.

## WOMEN'S SIZES

US/AUS	5	5.5	6	6.5	7	7.5	8	8.5	9	9.5	10	10.5	11	12

## FOOTWEAR PRODUCT CARE GUIDE

Our Mathers retail stores also offer a selection of product care items designed to assist you in caring for your shoes, including below:

### RAINGUARD

A water-repellent cream that cleans, conditions and protects all smooth leathers, including nappa leather.

### LEATHER EXPANDER

Gives fast relief from the discomfort of tight fitting shoes, leaving them supple and comfortable to wear.

### ZANOLIN

A leather conditioner and cleaner, which also provides water repellency to the surface.

## NOT THE RIGHT FIT?

If you are not completely happy with the fit for the particular purchase you can return the item or exchange it for a different size. Please refer to the returns policy and follow the relevant instructions.
